DETAILED ACTION

Newly submitted claim 48 is directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: the new claim recites alternative heat shock proteins gp96 or hsp90. These alternative hsp molecules are distinct species since each belong to different hsp groupings based on molecular weight and cellular function as compared to hsp70.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claim 48 is withdrawn from consideration as being directed to a non-elected species. See 37 CFR 1.142(b) and MPEP § 821.03.

This application contains claims 5-10, 14-19, 21-26, 29, 30, 32, 33, 36, 37 and 45-47 are drawn to an invention nonelected with traverse in Paper No. July 14, 2006. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Information Disclosure Statement

The replacement sheet (1 of 6) for the information disclosure statement (IDS) submitted on April 10, 2006 was filed. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

(Maintained rejection) Claims 1, 2, 4, 11, 13, 27, 28, 31, 34, 35 and 38-44 are rejected under 35 U.S.C. 102(e) as being anticipated by Weiland et al. (US 2004/0071656).

Applicant's arguments filed March 21, 2007 have been fully considered but they are not persuasive because no reasoning has been presented to indicate the Weiland et al. do not teach the claimed invention. Therefore, the rejection over the claimed invention in view of the teachings of Weiland et al. is maintained for reasons of record.

Summary

No claims are allowed.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Art Unit: 1648

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
